Re: Stephens Residence

Dear Gene,

I just wanted to thank you for the great job Natural Stone Care did at the Stephens Residence. The homeowner, builder and myself are all very pleased.

It has now been 16 years that I have been using your company for the sealing of natural stone and wanted to let you know that you will also have my business. One of the key selling features I use with the homeowner and or builder is that when Natural Stone Care seals the stone, they keep documentation of the job, and when maintenance work is needed years later you can call them and not have to worry about the wrong products being used. The fact that you do an awesome job is just a given.

Please do not hesitate to use my name as a reference.

Thanks again!

Sincerely,

Vicky Burton

Vicky Burton, CTC
